

Corporate Entertainment at Funny Things

Give your clients or staff an extra special VIP experience at Funny Things

The Funny Things team are experienced events managers who know how to create an extra special experience.

We can offer you a bespoke corporate entertainment package linked to any of our Funny Things events, designed in partnership with you to give an extra special, fun and entertaining experience for your guests.

We will guarantee that the artists we book for your event will be high quality and professional.

We can take care of all of the event management for you, or work in partnership with you to plan the perfect experience for your guests.

As your corporate entertainment package will be bespoke to you and your business, we will need to discuss your requirements and then provide you with a quote or a series of options.

A corporate entertainment package could include:

VIP pre-show drinks reception

Exclusive invitation-only comedy event

Comedy performers adding something extra fun and special to your existing event plans (including stand-up comedy, music or walkabout comedy characters)

Stand-up comedy workshops that improve confidence and public speaking skills

Improvisation comedy workshops that encourage team building and confidence

Comic and cartoon drawing workshops that develop creativity

To discuss your corporate entertainment needs please contact Jenny Smith on funnythingswolves@gmail.com or call 07967 187822.
